

# PRODUCT DATA SHEET

Art. No. 64.462.0 - AIRTWIST BLUE LOW S3 ESD HRO SRC

Protection: fiberglass toe cap and flexible FAP®lite midsole  
Plus: ESD, reflecting elements, TPU heel protection, TPU eyelet element for additional strengthening  
Upper: hydrophobised suede leather  
Lining: BreathActive functional lining  
Footbed: evercushion® CUSTOM FIT MID  
Sole: URBAN EFFECT Triple density - 300°C heat and slip resistant rubber outsole with rotation point and two-layered midsole made of EVA and continuously high performance EFFECT.FOAM for excellent cushioning and energy return (70% above the standard)  
Sizes / Width: 39 - 47 / 11

## Rubber sole URBAN EFFECT

The HRO rubber sole, which is heat-resistant up to 300°C, has a special sole profile that drains off liquids and thus optimizes the grip (SRC). By increasing the point of rotation, friction and thus fatigue are greatly reduced.

## Fiberglass toe cap

The high-tech fiberglass toe cap offers enormous durability, more toe freedom and is lighter than conventional composite caps.

## EFFECT.FOAM®

Tireless comfortable!

- 60% energy return
- 47% less impact on bones and joints\*
- extremely powerful and light
- permanently high level of comfort for fatigue-free work

\* Dynamic energy absorption reduces the impacts to 1.6kN, the average for safety shoes is 3.0kN

## FAP®lite- Durchtrittschutz

The latest generation of metal-free penetration protections:

- 50% lighter
- very high flexibility
- better cushioning and pressure elasticity
- cooling effect through breathability and sweat absorption

## evercushion® CUSTOM FIT MID

The evercushion® CUSTOM FIT footbed adapt optimally to the needs of the feet and significantly increases comfort. The highly breathable foam offers very good cushioning properties.

## Obermaterial

The homogeneous and insensitive surface of the suede leather makes this shoe more breathable and resistant in tough everyday work.
