

MOTIP Brake Cleaner

Technical Information

Easily remove dirt off your brakes with MOTIP Brake Cleaner. Brake Cleaner can be used on drum brakes, disc brakes, brake linings, calipers and brake shoes. The brake cleaner has excellent dissolving properties, leaves no residue and is non-conductive and non-corrosive. MOTIP Brake Cleaner has a powerful jet-spray.

Ord.-no: 000563, 200563

Quality & properties

Powerful jetspray
Excellent dissolving property
Leaves no residue
Non-conductive and non-corrosive

Physical & chemical data

Base: Aliphatic hydrocarbons
Colourname: no colour
Smell: Characteristic
Surfaces: Drum Brakes, Disc Brakes, Brake Linings, Brake Calipers, Brake Shoes
Minimum Working Temperature: 10 °C
Maximum Working Temperature: 25 °C
Flash point: n.a. °C
Storage stability: 10 years
Content:

- 500 ML
- 400 ml

How to use

Before use, carefully read the directions on the packaging and act accordingly.
The aerosol should have room temperature.
Best processing temperature 10 to 25°C.
Before use, shake the aerosol for 2 minutes.
Spray parts until the contamination has disappeared
Contaminated power brake cleaner should be regarded as chemical waste.

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

As of August 4, 2025 – This release replaces all eventually earlier issued versions.
