

SOUND'ULTRA C DETECTABLE DISPOSABLE EARPLUGS

P702LGD

BENEFITS

- Anatomical shape
- Blue color adapted to food-processing industry jobs

BONUS | Optimum comfort thanks to the soft slow expanding PU foam.

Applications

Very noisy working environment
Ideal for food-processing industry

Sizes / SKU numbers

One size fits all: 65 838 257

Packaging

- Pair wrapped individually
- Bag of 200 pairs

Description

- Soft and hypoallergenic disposable earplugs
- Detectable stainless steel ball bearing located in the earplug stem
- Detectable cord made of PVC/metal
- Non-porous polyurethane foam resistant to dirt
- Conical shape for easy fit
- Ideal for very noisy working environments (SNR 34)

Standards - Performance levels

SNR	H	M	L
34 dB	33 dB	31 dB	28 dB

EN 352-2

SNR = Average attenuation index (Single Number Rating)
 H = High-frequency attenuation value
 M = Medium-frequency attenuation value
 L = Low-frequency attenuation value
