EN — SAFETY EAR MUFFS / EAR-MUFFS ATTACHED TO AN INDUSTRIAL SAFETY HELMET

EN 352-1:2020 / EN 352-3:2020

A copy of this manual and the Declaration of Conformity for the product can be found on the product page of JSP Ltd's website: www.jsp.co.uk

These Hearing protectors are items of personal protective equipment (PPE) intended to reduce the harmful effects that loud noise can have on the hearing. They are designed to be used with ear-muffs have additional optional requirements at +50°C and at –20°C.

WARNINGS! • Ear-muffs are not adhered to, the protection afforded by the ear-muffs will be severely impaired.

• The following may affect the acoustic performance of the ear-muffs: • Long hair, unshed • Thick hair, tied back • Ear • Jewellery • Spectacles frames • Facial hair • Respiratory harness/headband • The fitting of hygiene covers to the cushions.

Ensure ear-muffs are fitted, adjusted, maintained and regularly inspected in accordance with the manufacturer's instruction. Ear-muffs should be worn at all times in noisy surroundings. If these instructions are ignored, protection will be severely compromised. Training, planning, use and appropriate maintenance are essential in order for the product to help protect the wearer from noise hazards. Failure to follow all instructions on the use of these personal protection products and/or failure to properly wear the products provided during all periods of noise exposure may adversely affect the wearer's health, lead to severe or life threatening illness or permanent disability. When worn, ear-muffs reduce ambient sounds which may affect warning signals or communications. Ear-muffs should not be worn or used to select the right product to match the working environment so that vital communication and emergency sounds remain audible. Ensure all parts of the ear-muffs are fitted, used and maintained in accordance with the manufacturer's instructions. 2. The ear-muffs are worn at all times in noisy surroundings. 3. The ear-muffs are regularly inspected for serviceability.

CLEANING INSTRUCTIONS: The ear-muff may be cleaned with the use of soap and warm water and dried with a soft cloth. JSP cleaning wipes may also be used or an antibacterial wet wipe. Do not allow the ear-muffs to be worn by more than one person, unless adequate wet wipes or dry cloths are removed and replaced. The ear-muff should not be cleaned with abrasive substances or solvents and must not be stored in direct sunlight or in contact with any solvents. This product may be adversely affected by certain chemicals and substances which may damage the product. Contact JSP Ltd. for particular cushions, may deteriorate with use and should be examined at frequent intervals for cracking and leakage, for example, and replaced when required. **Ear-muff cushions:** Ear-muff cushions are designed to be removed and replaced.
